

BOOSTER CABLES & CLAMPS

Booster cable sets are equipped with heavy-duty plated steel, EZ™ Reach, or high-tension parrot style clamps. All clamps are color-coded for polarity identification. These clamps provide easy attachment on hard to reach side, top post and remote battery access terminals. Bright colorful packaging assures high store display visibility along with convenient re-usable storage.

Professional Service Booster Cables

Cables are made of 2-gauge 100% copper conductors. Thermoplastic elastomer cable insulation protects against oil, grease, and abrasion. Color-coded tangle-free dual cable construction, specially designed for maximum flexibility and ease in handling.
